

ISupply Directory

Being informed around sustainable products.

WHAT IS ISUPPLY ?

To assist project teams in the selection of sustainable products to achieve the targeted sustainability rating for their products, the Infrastructure Sustainability Council (ISC) have an ISupply Directory of sustainable products on their website.

Project teams can use this to select and specify products, which can assist in providing maximum potential for increasing points towards every credit within the selected rating tool they are using on projects.

HOW DOES IT WORK?

The ISupply Directory allows the user to search products by type, scheme and credit categories. Each directory entry has a summary of the product and sustainability benefits it can provide as well as the various credits it may be used under. There are contact details for the supplier and links to the supplier's website.

"CONNECTING SUSTAINABLE SUPPLIERS WITH PROEJCTS AND ASSETS UNDERTAKING THE INFRASTRUCTURE SUSTAINABILITY COUNCIL'S (IS) RATING SCHEME."

XYPEX AUSTRALIA SOLUTIONS

A wide range of Xypex products used in our protection and remediation solutions, are included in the ISupply Directory.

Our range of solutions contribute to the materials, resources and innovation credits within the IS Rating Scheme 'Design and As Built' tools.

If your project is using the IS Rating Scheme to deliver sustainable infrastructure, whether you are in the design or construction phase, please give us a call to discuss how you can earn credits through the use of our high performance Xypex protection and remediation solutions, and how that will help you achieve your project's overall targeted IS rating.

Xypex Australia; doing our part in supporting a sustainable future in all that we do.
