

Australian Standard AS 1478.1

Chemical Admixture for Concrete, for Special Purpose
Normal Setting (Type SN) Admixture

DOING YOUR PART

Australian Standard AS 3600 for "Concrete Structures", requires all concrete to be compliant with AS 1379, which in turn, requires **all chemical admixtures** to be AS 1478.1 compliant.

Xypex C-Series Admixtures are one of the few Chemical Admixtures on the market that claim certification compliance to AS 1478.1.

Ensure your decision provides you with the best practice technology, that meets the required standards.

Do your part by ensuring your project complies with AS 3600 by asking to see an actual certification report of AS 1478.1 compliance for your proposed choice of admixture.

Being informed supports better decision making in ensuring Best Practice Building Standards
